Assistant Professor
Department of Microbiology & Immunology

The Department of Microbiology and Immunology, Loyola University Chicago seeks applications for a full-time tenure track position at the Assistant Professor level. Applicants must have a Ph.D., M.D., or equivalent degree and at least two years of post-doctoral research experience. Candidates who have a research focus in immunology or bacteriology are preferred.

The Department of Microbiology and Immunology (www.lumc.edu/microimmuno) includes fifteen primary faculty devoted to NIH-funded activities in molecular and cellular immunology, virus and bacterial structure and function, cell biology and physiology. Our long-term goals are to promote development of interdisciplinary programs in our department. The department is situated in the Loyola University Medical Center Campus in Maywood, IL, about ten miles west of downtown Chicago. Our research enterprise is in a phase of expansion including moving to a new state of the art research building. Institutional research is supported by a variety of core facilities. With numerous formal and informal seminars and presentations, we foster a highly-interactive research environment that helps us to continue building an internationally-recognized department.

The department requires faculty commitment to graduate education, mentorship, service and scholarly activity. Successful candidates will be expected to establish and maintain an independent, externally funded research program. Candidates will be expected to participate in teaching graduate and medical students.

Interested applicants should submit letters of application, C.V., research interests, and names and addresses of three references to: Faculty Search Committee Chair, Department of Microbiology & Immunology, Loyola University Chicago, 2160 S. First Avenue, Maywood, IL 60153 or as a single PDF to aglodowski@lumc.edu.
